CARAGA STATE UNIVERSITY RE-ENTRY ACTION PLAN

A. Details of the Learning and Development (L&D) Program

Name of Employee	**BIONGCOG, JONA J.** Last name, First name, M.I.
Position Title/Rank	**ASSOCIATE PROFESSOR V**
Current Designation	FACULTY
Learning and Development (L&D) Program	☑ **Trainings** (7 days and above) ☐ **Sabbatical** ☐**Advanced Studies:** _____Graduate _____Post-Graduate _____Post-Doctoral ☐ **Others** (pls specify): _____
Name and Address of Delivering HEI/Facilitating/Sponsoring Entity	**University of Aizu** *DHEI/Facilitating/Sponsoring Entity where employee will be taking up his/her L&D program*
Fund Requirement and Source	Regular Agency Fund(RAF), General Administration And Support(GAS) And Higher Education Program(HEP)
Timeframe	*Period covered by the L&D program:*January 18-26, 2026
Context	*What are the current needs, gaps, challenges, and opportunities in your position / rank / designation / discipline / region / country that you will be able to help address by undertaking the said L&D program?* 1. The participation will foster academic and research partnerships with international institutions, contributing to the global reputation of the university. 2. Participation in the conference will strengthen partnerships with regional experts, advancing shared goals in sustainable agriculture and forest management. Participation in the Conference will enhance the faculty member's expertise, exposing them to new research trends, methodologies, and innovative practices in the field. 3. Publication of the research paper will contribute to the university's research output and bolster its standing in international academic rankings.

B. Details of the Re-Entry Action Plan

Brief Description	**a. *Title: 1ST INTERNATIONAL CONFERENCE ON EMERGING TECHNOLOGIES AND SMART SOCIETIES (ETSS2026)*** ***Rationale:*** This is an international conference co-hosted with ETLTC2026, on all aspects of entertainment technology and management. This conference aims to bring together researchers and practitioners from all works of the digital entertainment technology and management fields and covers and disseminates the rapidly growing research and application domain of entertainment technology and management. In the knowledge society, entertainment is a key pillar towards a new era of human experience and transcendence supported by new media. Within this context, this conference addresses an emerging discipline that stands in the converging domains of high-tech and new media. This conference will aim to explore how entertainment management stands for the "holistic approach to interactivity as being the dominant transformation enhanced by digital media".
Objective/Purpose *Give three objectives you intend to accomplish upon returning to work in terms of contribution to the overall performance of CSU / discipline of study / region / country. Objectives must be specific, measurable, achievable, relevant and time-bound.*	**Objectives upon return service:** Attending the international conference on entertainment technology and management provides an excellent opportunity to enhance your contributions to Caraga State University (CSU), your academic discipline, the region, and the country. Here are three **Specific, Measurable, Achievable, Relevant, and Time-bound (SMART)** objectives to accomplish upon your return: 1. **Develop and Implement a Syllabus in Entertainment Technology** ○ **Specific:** Design a new undergraduate syllabus titled "Advanced Entertainment Technology Applications" to be offered in the upcoming academic year. ○ **Measurable:** Achieve an enrollment of at least 30 students in the first semester and receive an average syllabus evaluation rating of 4.5 out of 5. ○ **Achievable:** Utilize insights and materials gathered from the conference to develop the curriculum or syllabus, incorporating the latest

industry trends and technologies.
    - **Relevant:** Aligns with CSU's mission to provide cutting-edge education and addresses the growing demand for expertise in entertainment technology within the region.
    - **Time-bound:** Complete syllabus development by the end of the current academic year and launch it in the first semester of the next academic year.
2. **Establish a Collaborative Research Project on Digital Media Innovations**
    - **Specific:** Initiate a research project focusing on the impact of digital media innovations on regional cultural development, in collaboration with at least two other universities or industry partners.
    - **Measurable:** Produce a comprehensive research paper submitted to a reputable journal within 12 months and present findings at a national conference within 18 months.
    - **Achievable:** Leverage networking opportunities and partnerships formed during the conference to secure collaboration and necessary resources.
    - **Relevant:** Supports the advancement of the academic discipline and contributes to the region's cultural and technological development.
    - **Time-bound:** Formalize partnerships and project scope within three months post-conference, complete research within 12 months, and disseminate findings within 18 months.
3. **Organize Re-Echo Workshop on Emerging Trends in Entertainment Management**
    - **Specific:** Plan and conduct a day workshop for local industry professionals and students, focusing on the latest trends and best practices in entertainment management.
    - **Measurable:** Attract at least 30 participants and achieve a satisfaction rating of 90% based on post-workshop surveys.
    - **Achievable:** Apply knowledge and materials

acquired from the conference and invite at least two speakers met during the event to participate in the workshop.
- **Relevant:** Enhances the skill set of local professionals and students, fostering regional growth in the entertainment sector.
- **Time-bound:** Organize and execute the workshop within six months following the conference.

These objectives are designed to maximize the benefits of your conference experience, contributing to the overall performance of CSU, the advancement of your academic discipline, and the development of the region and country.

Implementation Schedule/Timetable/ Work Plan

When is your expected re-entry into the University following completion of your L&D Program? How many years of service will you serve CSU thereafter?

Activities	Participants	Responsible Person/Unit	Target Date	Other Units/ Institutions Involved
Organize a two-day workshop on emerging trends in entertainment management	Local industry professionals, students	Department of Entertainment Technology	March 2026	Industry experts, invited speakers, and local media
Develop and launch an advanced course in entertainment technology applications	Undergraduate students	Curriculum Development Committee	June 2026	Partner universities, guest lecturers
Initiate collaborative research on digital media innovations	Researchers, faculty members	Research and Development Office	August 2026	Regional universities, private sector partners

Expected Results/Milestones/ Outcomes

What outcomes do you expect to observe within the given timeframe in terms of benefits and contributions to CSU/partners and stakeholders/discipline of study/immediate community/region/country?

Expected Outcomes of the Action Plan

1. **Improved Knowledge and Skills**
   - Participants will gain updated knowledge and skills in entertainment technology and management, contributing to enhanced competence in their respective fields.
2. **Enhanced Curriculum**
   - New and advanced courses in entertainment technology will be integrated into the academic curriculum, aligning with global standards and

	addressing the evolving needs of the industry. 3. **Strengthened Research Collaboration** ○ Collaborative research initiatives will be established between the institution and regional/national organizations, fostering innovation in digital media and entertainment management. 4. **Increased Industry-Academia Engagement** ○ Strengthened partnerships with industry professionals and organizations will lead to internships, joint projects, and workshops that benefit students and faculty. 5. **Capacity Building for Faculty and Students** ○ Faculty members will enhance their teaching strategies, while students will develop critical thinking and technical expertise, making them more competitive in the job market. 6. **Regional Development** ○ The dissemination of new knowledge and technologies will contribute to the growth of the local entertainment industry, positively impacting the region's economy and cultural landscape. 7. **Global Recognition** ○ Active participation in international conferences and research dissemination will elevate the institution's reputation and establish it as a leader in entertainment technology and management. 8. **Sustainable Impact** ○ The action plan will ensure a long-term impact by fostering innovation, encouraging creativity, and preparing graduates to address future challenges in the field of entertainment technology.
Resources Needed *Resources can be people, equipment, facilities, and funds, from internal and/or external funding sources*	Resources Needed to Implement the Action Plan Human Resources: • Faculty members with expertise in forestry, environmental sciences, and related fields • Graduate students • Administrative staff • Community organizers

Financial Resources:

- Grants and funding from government agencies, foundations, and private donors
- Institutional support from CSU
- Student fees and tuition revenue

Physical Resources:

- Research facilities and equipment
- Laboratory space
- Classroom and meeting facilities
- Office space
- Computer and internet access

Information Resources:

- Access to scientific databases and literature
- Data collection and analysis tools
- Geographic information systems (GIS) software
- Communication and collaboration platforms

Partnerships:

- Collaboration with government agencies, NGOs, local communities, and other institutions

Risks

Describe the risks that might impact the timeline and success of the implementation of the action plan and how you plan to manage these to ensure on time implementation and success

Risk	Mitigation
Insufficient financial and material resources may delay or limit the implementation of planned activities.	Secure funding through partnerships with local and international organizations, apply for grants, and allocate existing institutional resources effectively. Regular budget reviews will ensure optimal utilization of resources.
Low participation from stakeholders, including faculty, students, and industry professionals, might hinder achieving the plan's objectives.	Perform a comprehensive needs assessment to procure necessary tools in advance, and collaborate with technology providers for support and maintenance.
Faculty or stakeholders may resist adopting new methodologies or changes introduced by the action plan.	Provide orientation and capacity-building sessions to highlight the benefits of the action plan, and involve key stakeholders in decision-making processes to foster ownership and acceptance.
External factors such as natural disasters or public health emergencies could disrupt the implementation timeline.	Include flexibility in the timeline to accommodate potential delays, shift to virtual platforms when necessary, and establish a risk contingency fund.

	Tight schedules might compromise the quality of activities and outputs.	Prioritize tasks, set realistic deadlines, and regularly monitor progress to ensure that activities remain on track without compromising quality.
